STAGE: Pre-Feasibility

STATUS: A formal request to initiate a Section 205 study was submitted to the Detroit District by the City of Walled Lake on 08 July 2004. FY08 funding could be used to initiate the feasibility study to determine if indeed Federal interest in the identified harbor improvements is warranted and justified. The potential non-Federal Sponsor (NFS) has verbally been requested to provide the Corps with a more detailed project scope, such that specific needs can appropriately be addressed.
